Summary

Frontend engineer and product enthusiast with 3+ years of experience spanning software exploration, freelancing, and impactful roles in tech-driven organizations. Skilled in modern web technologies, creating scalable, user-focused products with clean, maintainable code. Experienced in large-audience platforms and community-focused initiatives. Passionate about good design and collaborating with detail-oriented teams to craft seamless digital solutions.

Skills

- **Web Development:** JavaScript, TypeScript, React, Next.js, Tailwind CSS, Responsive Design
- **Tools & Platforms:** Git, GitHub, REST APIs, BaaS, Google Workspace APIs, Figma
- **Soft Skills:** Team Collaboration, Mentorship, Project Ownership

Experience

Education Mentor | iLAB

Oct 2024 - Apr 2025

- Trained 50+ participants in digital basics; advanced 30+ in specialized modules.
- Mentored 5+ students in JavaScript and modern development practices.
- Led community initiatives, refining programs through iterative feedback.

Software Engineer | ClusterDev

Nov 2023 - Jun 2024

- Revamped manglish.app using Next.js — the web home of Kerala's iconic keyboard brand, Manglish.
- Automated static site builds, reducing deployment effort significantly.
- Improved site SEO during the revamp, resulting in higher search visibility.
- Built an HTML Canvas-based social media post generator with 150,000+ interactions in one day.
- Contributed to a Lexical-based editor for transliteration, collaborating across teams.
- Gained expertise in clean code, structured workflows, and analytics-driven development.

Projects

Epoclip

epoclip.vercel.app

Built with Next.js and Tailwind CSS, a YouTube timestamping platform with a crafted interface enabling users to save and share video moments, combined with a Chrome extension.

Skill Hub by iLAB

skillhub.ilabindia.org

Developed using Next.js and Google Sheets, a check-in/check-out management system with real-time occupancy dashboards for workspace utilization tracking, used by dozens of users daily.

WRITEPOST

writepost.live.binzek.com

Created with Next.js and Appwrite, a full-stack minimalist story-sharing platform with secure auth, custom-built interface, and a Pinterest-style layout shaped by a stark visual aesthetic.
